# World Computer Literacy Day, 2023

**Theme :** “Literacy for human-centered recovery: narrowing the digital divide”.

**Organised by**  
**Dept of Computer Sc , Library & IQAC**

**Debashish Barman,,**  
**Assistant Professor, Computer Sc**  
**Sir Gurudas Mahavidyalaya,**  
**Ultadanga, Kol-65**

## Essential Skill Sets on 21<sup>st</sup> Century

World Computer Literacy Day is celebrated on December 2 every year to encourage digital literacy across all cultures and communities worldwide.

**Theme :** “Literacy for human-centered recovery: narrowing the digital divide”.

Here are some skills that students can learn and develop through computer literacy:

**Basic computer skills:** Students can learn basic computer skills such as typing, using a mouse, and navigating the internet.

**Digital communication:** Computer literacy can help students develop their digital communication skills, including email video conferencing, and social media.

**Coding:** Students can learn to code and develop their programming skills, which can be useful in a variety of fields.

**Data analysis & Machine Learning:** Computer literacy can help students learn to analyze and interpret data using tools such as spreadsheets and databases.

**Cybersecurity:** Students can learn about cybersecurity and how to protect themselves and their devices from online threats.

# Basic Computer Skill

- Writing, modifying, and editing text using a word processing application.
  - Microsoft word
- Creating and formatting simple spreadsheets.
  - Excel / Google Sheet
- Creating basic presentations . Power Point / Slide
- Knowing how to forward and cc emails Gmail / other
- Understanding how to search, assess search results, and download information from the internet. Browsing

# Other Computer Skills

- Translation => Google Translate
- Converting => Pdf to Word, Word to Pdf , Image to pdf
- Resizing => photo , file , video.
- Resume writing . Canva
- Use of Cloud Drive, Keep, Classroom, Virtual Meeting, Anydesk and Many more.
- Use of Bookmark, Play List, Video creation , Digital Marketing , Password Management, Flyer Making etc.

# Digital Tools

## **Artificial Intelligence**

A science devoted to making machines think and act like humans.

## **Machine Learning**

Focuses on enabling computers to perform tasks without explicit programming.

## **Deep Learning**

A subset of machine learning based on artificial neural networks.

# Types of Machine Learning

**Machine Learning**

**Supervised**

Task Driven  
(predict Next value)

**Unsupervised**

Data Driven  
(Identify Clusters)

**Reinforcement**

Learn From  
Mistakes

# What is it?

- ❖ **CHATGPT uses a neural network architecture called a transformer to process input text and generate output text.**
- ❖ **pre-trained on a large dataset , already learned**
- ❖ **patterns and structure of natural language.**
- ❖ **prompt-> CHATGPT> Output(Pre-trained knowledge to generate a response)**

- **Write Code**
- **Write Music**
- **Translations**
- **Extract Data from Text**
- **Essays**
- **Maths Questions**
- **Unique Ideas and Examples**
- **Critical Thinking (with a Limitation )**
- **Jokes**
- **Can Act as a Linux terminal**
- **Debug Code**

# Chat GPT & Mid Journey

## ❖ ChatGPT

- ❖ [Generate text-based responses for various types of content such as cover letters, resumes, song lyrics, and party plans<sup>1</sup>](#)
- ❖ [Analyze texts, play text-based role-playing games, and generate prompts for AI art.](#)
- ❖ [Answer complex questions and provide cohesive explanations on various topics.](#)
- ❖ [Summarize research papers, reports, webpages, and studies.](#)
- ❖ [Write reports, theses, and dissertations.](#)

## Midjourney:

- ✓ [Generate images from natural language descriptions.](#)
- ✓ [Analyze texts and generate prompts for AI art.](#)
- ✓ [Summarize research papers, reports, webpages, and studies.](#)
- ✓ [Write reports, theses, and dissertations.](#)
- ✓ [Provide a range of styles for generating images.](#)
- ✓ [Create text prompts from existing images using the “describe” function.](#)
- ✓ [Offer a comprehensive guide on leveraging Midjourney prompts to create stunning visuals effortlessly.](#)
- ✓ [Help users create anything they can imagine from just text.](#)
- ✓ [Allow users to submit prompts and create various visuals](#)

# Thank You

**Prof. Debashish Barman,  
Assistant Professor,  
HoD, Computer Sc.
